 - Project Charter w/ Sign-off Agreement
 - Project Plan
 - Project Timeline

- Implementation of Project
 - Development of Project Teams:
 - Management Team
 - Technical Team
 - Process/Operational Flow Team
 - Long Term Care Process Roll-out Team
 - A Success Story:
 - “Go live” completed 2 weeks early !!!
 - Data now flowing smoothly among organizations
 - Better coordination of care and communication between hospitals and nursing home

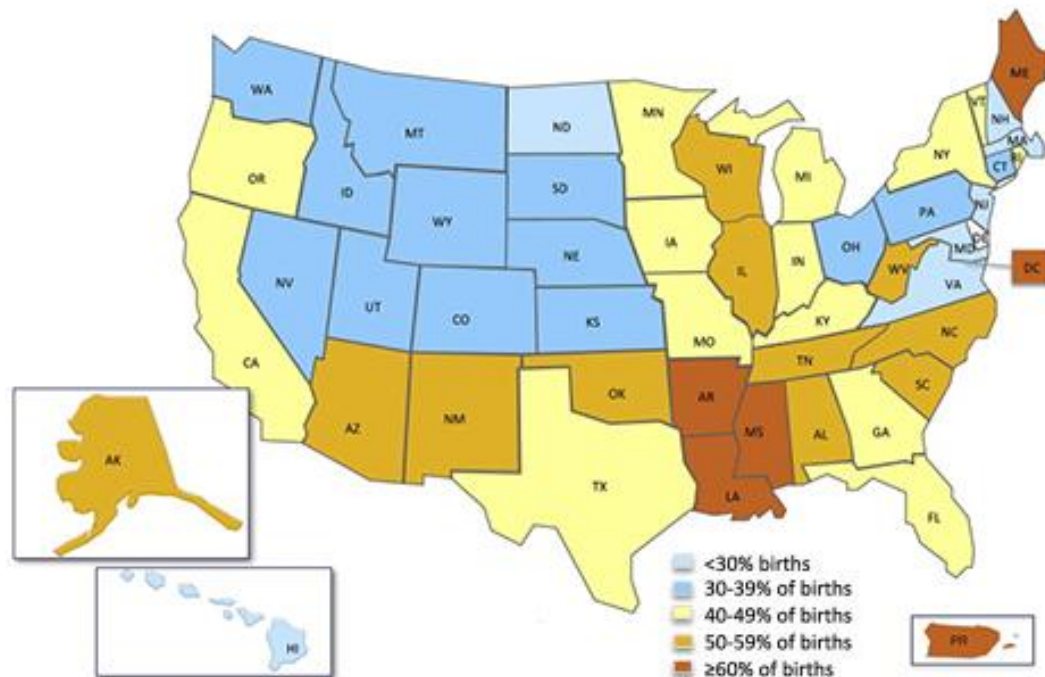

What's Next?

ILHIE projects in the pipeline

Ivan Handler, CIO

- Illinois Medicaid spends over **\$800,000,000** a year on poor birth outcomes

CHIPRA Grant can help

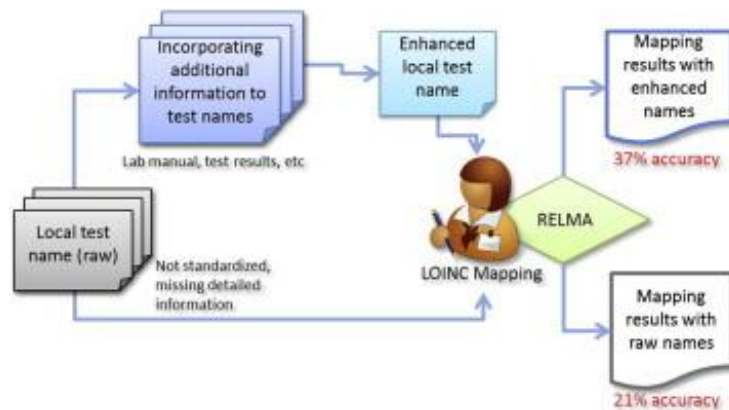

- Illinois has a grant from CMS for CHIPRA
 - Child Health Improvement Program Reauthorization Act
- Building a prenatal tracking application
- Prenatal data stored and available on web
 - Available to any provider who sees the woman
 - Hope to reduce poor outcomes through better information

- HFS has some Continuity of Care Entities
 - Improve outcomes in a small population
 - Prescription drug compliance monitoring can help
- ILHIE, OHIT & HFS are collaborating
 - HFS – supplies pharmacy claims
 - ILHIE & OHIT monitor pharmacy claims
 - ILHIE sends member claims to CCE

- MU 2 expects lab reporting to use the LOINC standard
- This can be a complex process

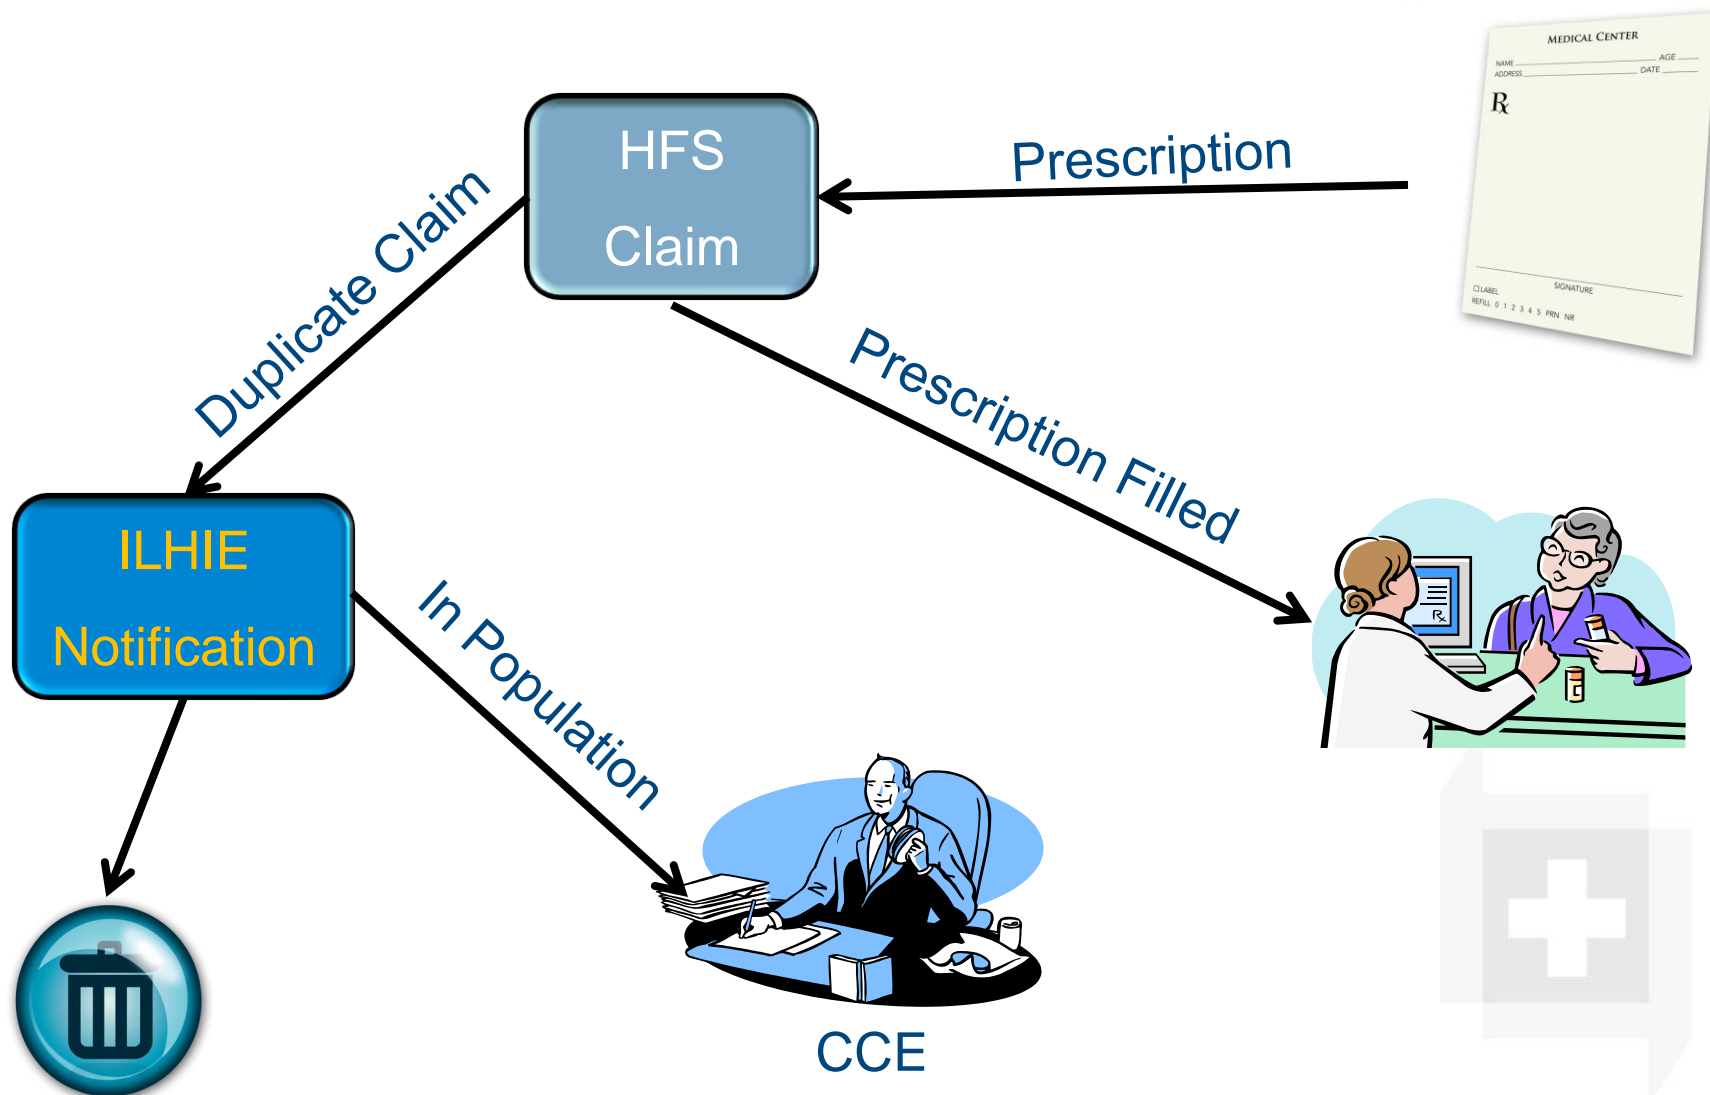

ILHIE is working with partners to speed up the process

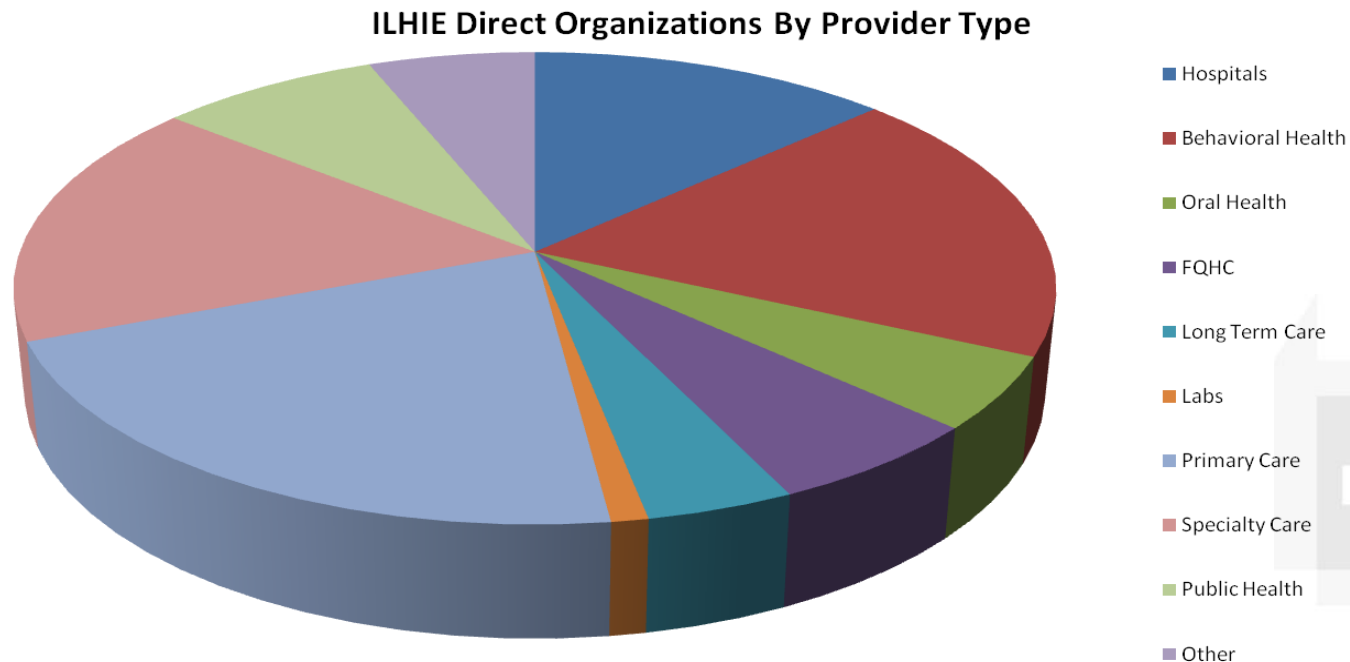

- SAML assertions are the industry standard
 - ILHIE supports SAML
 - Compliant EMRs support SAML
 - HIEs should adopt same standard
 - If not, we have a temporary solution
 - Want compliance in 2014
- Important to pass provider authentication from local EMR through ILHIE to remote EMRs for queries
- Important that this information ends up in audit trail
 - May allow ILHIE to deduce clinical relationships

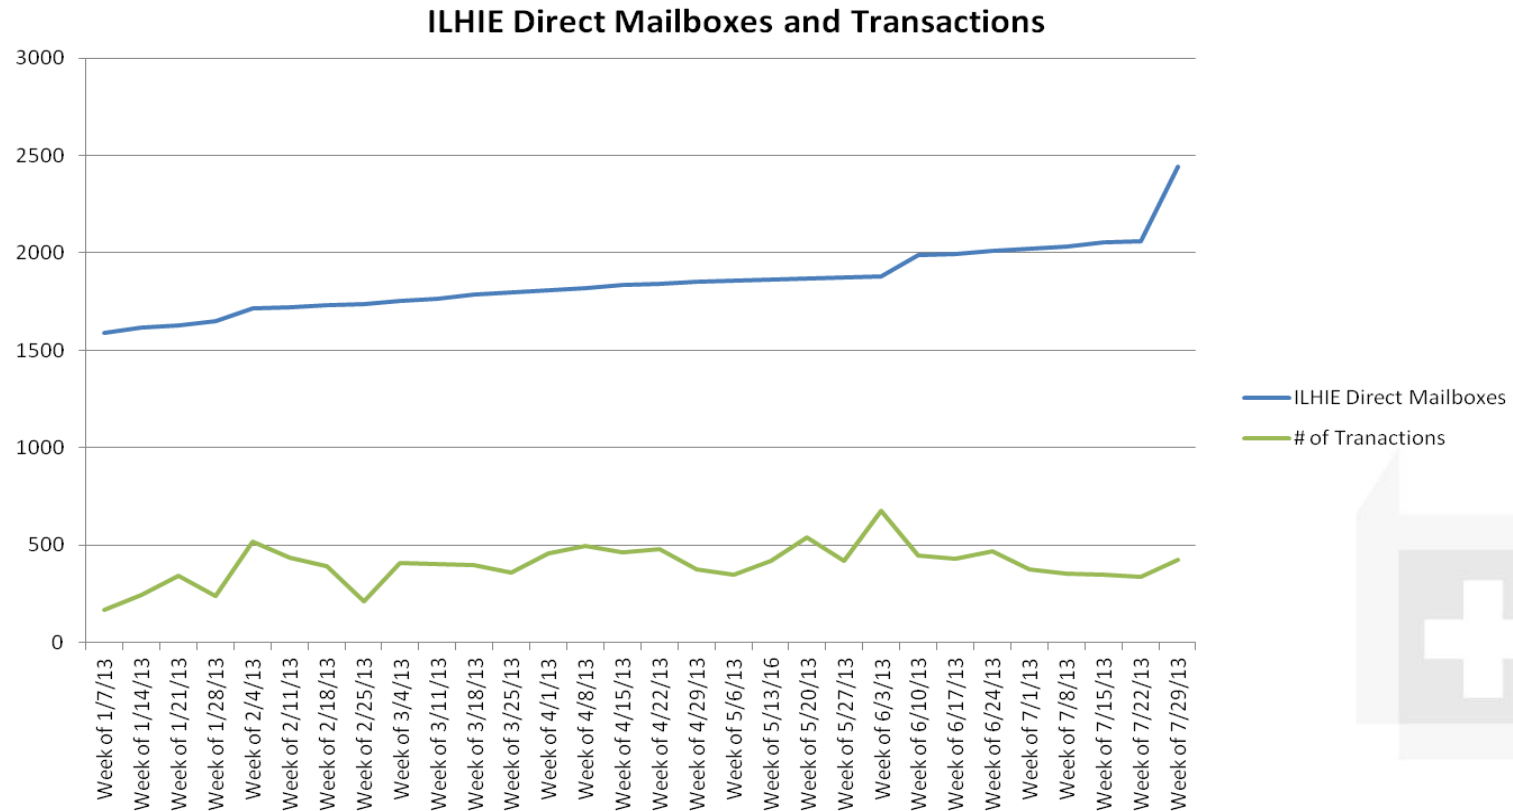

Notification Process

- Successfully transitioned from free to paid service on July 1, 2013
- Almost **2,500 active mailboxes**, representing a wide array of provider types:

- Utilization steadily increasing – now averaging approximately **1,430** transactions per month:

State Health Care Innovation Plan – Health IT Components:

Leverage technology to integrate disparate services/providers on behalf of the patient

- Real-time data alerts for ED notifications, inpatient admissions/discharges, Rx, lab
- Uniform state-wide IT solution for care plans accessible over the state HIE
- Common initial health risk screen and comprehensive risk assessment
- Portable care plan that follows the patient
- Provide predictive modeling capabilities to be used by care manager

Leverage additional IT to support specific population innovations

- Share and receive pertinent information impacting health care to ILHIE, community-based organizations, and relevant social service providers who are outside of the traditional health care system

Create and implement an All-Payer Claims Database

- Create transparent data and accountability for cost and quality
- Provide support for managed care effectiveness, population health planning, and policy formation
- Use data to periodically select quality parameters that monitor effectiveness of providers/payers
- Provide actionable data for clinical decision-making through care plans, real-time data alerts, and risk assessments

Patient Consent Workshop

- In May 2013, the General Assembly passed, and on August 16, 2013, Gov. Quinn signed into law, significant amendments to the Mental Health & Developmental Disabilities Confidentiality Act (HB1017; P.A. 98-0378)
- On June 26, 2013, the ILHIE Authority convened the Patient Consent Management Workshop. The Workshop and its workgroups provide an opportunity for healthcare stakeholders to provide input and recommendations on possible privacy, security, and consent management policies to implement HB1017
- Stakeholders and other interested individuals can participate in any of the following:
 1. Patient Choice and Meaningful Disclosure Workgroup -
 - Meaningful Disclosure at the Point of Care Subgroup
 - Meaningful Disclosure at the HIE Website Subgroup
 - Break the Glass Subgroup
 - Specially Protected Health Information Subgroup
 2. Patient Consent Preferences and Data Security Workgroup
 3. Breach Notification Workgroup

Workgroup Recommendations & Deliverables

- **Patient Choice and Meaningful Disclosure Workgroup**
 - Meaningful Disclosure at the Point of Care – Recommend HB1017 Notice documentation and meaningful disclosure information for providers to share with patients
 - Meaningful Disclosure at the HIE Website – Recommend meaningful disclosure patient information available on the ILHIE website
 - Break the Glass – Recommend policy on emergency access to ILHIE data for patients who have opted out
 - Specially Protected Health Information – Recommend policies on handling of sPHI
- **Patient Consent Preferences and Data Security Workgroup**
 - Consider and evaluate technological solutions to patient consent and data security within the Illinois HIE, including interoperability and segmentation
 - Meets annually as required by HB1017
- **Breach Notification Workgroup**
 - Recommend a Breach Notification policy
- **Workgroup timelines:**
 - October 2013 – Workgroup recommendations/deliverables submitted to ILHIE Authority Data Security & Privacy Committee (DSPC)
 - November 2013 – DSPC recommendations/deliverables submitted to the ILHIE Authority Board
